Agenda

9:45	Welcome & Introduction
10:00	Vestibular Ocular Reflex Testing by vHIT
	1. Review the physiology and physiological response of the vestibular ocular reflex
	(VOR) when applied to head movements.
	 What is the head impulse VOR response assessing? Which head impulse technique should I use?
	Which head impulse technique should I use?How the vHIT VOR relates to natural head movement.
	4. How the variational relates to natural nead movement.
10:45	Workshop 1: vHIT (Lateral canal VOR)
10.43	1. Guidance in setting up and using hardware to objectively measure the VOR
	Demonstration of horizontal / lateral head impulses
	3. Hands on workstations to receive training on the steps needed to conduct
	successful head impulse for horizontal VOR.
	4. Review results, editing and spotting artifact
11:15	Comfort Break
11:30	Workshop 2: vHIT (Vertical canal VOR)
	1. Guidance in setting up and using hardware to objectively measure the VOR
	2. Demonstration of vertical / anterior / posterior head impulses
	 Hands on workstations to receive training on the steps needed to conduct successful head impulse for vertical VOR.
	4. Review results, editing and spotting artifact
	The view results, equing and spotting artifact
l	
12:30	Lunch
12:30	Lunch
12:30	Video Head Impulse Testing – Clinical Utility 1
	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral
	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function
	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function
	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function
13:15	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway
13:15	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2
13:15	 Video Head Impulse Testing – Clinical Utility 1 Discussion of vHIT results, and the interpretation when examining peripheral vestibular function The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 vHIT, Rotational Chair & Caloric Testing VOR assessment vHIT and functional impairment, considerations for retraining / rehab / treatment
13:15	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment
13:15	 Video Head Impulse Testing – Clinical Utility 1 Discussion of vHIT results, and the interpretation when examining peripheral vestibular function The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 vHIT, Rotational Chair & Caloric Testing VOR assessment vHIT and functional impairment, considerations for retraining / rehab / treatment
13:15	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application
13:15 14:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application Discussion of vHIT results in real cases.
13:15 14:00 14:45 15:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application Discussion of vHIT results in real cases. What else should be considered when using vHIT in the clinic?
13:15 14:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application Discussion of vHIT results in real cases.
13:15 14:00 14:45 15:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application Discussion of vHIT results in real cases. What else should be considered when using vHIT in the clinic?
13:15 14:00 14:45 15:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2. The application of vHIT in the vestibular diagnostic assessment pathway Video Head Impulse Testing – Clinical Utility 2 1. vHIT, Rotational Chair & Caloric Testing VOR assessment 2. vHIT and functional impairment, considerations for retraining / rehab / treatment Comfort Break Video Head Impulse Testing - application Discussion of vHIT results in real cases. What else should be considered when using vHIT in the clinic? Question & Answer
13:15 14:00 14:45 15:00	Video Head Impulse Testing – Clinical Utility 1 1. Discussion of vHIT results, and the interpretation when examining peripheral vestibular function 2.
